

Boston City Council

ED FLYNN

Councilor - District 2

**Council President Flynn to Vote in Favor of the
Boston Regional Intelligence Center (BRIC) Grants
At the October 4th City Council Meeting**

Having accurate intelligence through a structured center is critical for every large police department in the country, and the Boston Regional Intelligence Center (BRIC) provides this invaluable intelligence gathering and data to keep our city safe and to prevent crime. It's critical we provide the men and women of the Boston Police Department with the funding and tools to continue to provide exceptional public safety support to Boston's residents and visitors.

The grants that the Boston City Council will be voting on total more than \$3 million. I will be voting in favor of the grants for BRIC at tomorrow's City Council meeting.
